

SUJAL CHAVAN

Data Analyst | Aspiring Data Scientist

Pune, Maharashtra | 8380004819 | sujalthavan2003@gmail.com

LinkedIn: linkedin.com/in/sujal-chavan-a4890936b | GitHub: github.com/Sujalthavan2003

SUMMARY

Data Analyst with hands-on experience in Python, SQL, and Power BI, including building dashboards on datasets of 2.8M+ records and running end-to-end exploratory data analysis. Recently completed a Post Graduate Program in Data Science, Analytics & AI, with additional project experience in deep learning and computer vision (CNN, VGG16). Focused on turning raw data into clear, decision-ready insights.

TECHNICAL SKILLS

- Programming & Analysis: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (Joins, Subqueries, CTEs, Window Functions)
- BI & Spreadsheets: Power BI, Microsoft Excel (Pivot Tables, Power Query, XLOOKUP)
- Data Handling: Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA)
- Machine Learning / Deep Learning: Supervised & Unsupervised Learning, Model Evaluation, CNNs, TensorFlow/Keras
- Tools & Platforms: MySQL, GitHub

PROJECTS

Amazon E-Commerce Sales Dashboard | Power BI, Excel

- Built an interactive Power BI dashboard analyzing 2.8M+ sales records to surface revenue trends, KPIs, and customer behavior patterns
- Cleaned and transformed raw transactional data prior to visualization, improving data reliability for reporting

Insurance Claims Analysis Dashboard | Power BI, Excel

- Designed a dashboard to analyze insurance claims and customer segments, enabling faster identification of claim trends
- Used interactive visualizations (filters, drill-downs) to support data-driven decision-making

Face Detection using VGG16 | Python, TensorFlow, Keras

- Developed and trained a CNN using a VGG16 architecture for face detection
- Performed image preprocessing and feature scaling, and evaluated model performance using standard classification metrics

Exploratory Data Analysis (EDA) | Python, Pandas

- Performed data cleaning, preprocessing, and visualization across multiple datasets
- Identified key trends and actionable insights to support downstream analysis

PROFESSIONAL EXPERIENCE

Industrial Trainee - Operations & Reporting Support, Sayaji

Aug 2024

Hotel, Kolhapur

- Audited transactional records across hospitality departments, maintaining 100% data integrity for internal reporting
- Prepared structured reports and coordinated with departments to ensure data accuracy and consistency for operational decision-making

EDUCATION

Post Graduate Program in Data Science, Analytics & Artificial Intelligence

Aug 2025

Imarticus Learning, Pune

- Core areas: SQL, Python, Data Analysis, Power BI, Machine Learning Basics
- Completed hands-on projects in data cleaning, visualization, and analytics

Bachelor of Science in Hospitality Studies (B.Sc. HS)

Aug 2024

Kavikulaguru Kalidas Sanskrit University, Ramtek

- Studied business fundamentals and operations management, with exposure to operational data and reporting

CERTIFICATIONS

- SQL (Basic & Intermediate) - HackerRank, Jan 2026
